Persons having keys will observe the following rules:—

When it is necessary to use the signal boxes, go to the one nearest to the fire, and put your key into the outside door, open it and pull down the *hook* on the inside once, or until you hear a bell within the box; close the door, and remain to direct the firemen to the locality of the fire. In case the box does not work, go to the next nearest station; you can procure a key at a store or dwelling in the vicinity.

Do not try to take your key out, as it is locked in and will be returned to you.

If, upon opening the door, you hear the bell within the box ring, do not pull the hook for one minute, or until it has stopped ringing, for it will indicate that an alarm is being sent from some other station.

Persons having keys will be held responsible for their use. Do not give an alarm for a fire seen at a distance; do not open the box except in case of fire; do not give an alarm until certain there is a fire.

Keys are left at stores and dwellings nearest to the boxes.

Key holders changing their residences or places of business where keys are kept, will please report the same at the fire alarm

THE BOARD OF TRADE.

Headquarters 460 Ninth street. The Oakland Board of Trade was organized September 10, 1886. The first President was V. D. Moody, President of the First National Bank, who was succeeded, in April, 1888, by F. K. Shattuck; J. M. Davies was the first Secretary.

Like similar organizations in this State, the Board of Trade is in effect a city improvement association, looking to all measures of public interest, extending a knowledge of the advantages of the city and county, and in all suitable ways promoting agricultural, commercial and industrial prosperity.

April 10, 1888, the Board was regularly incorporated under the laws of the State, and its articles now provide for the usual commercial features of the arbitration and adjustment of differences.

European Universities.

OFFICE:

Room 5, Odd Fellow's Hall,

SAN FRANCISCO.

Anderson's Academy =

It is designed to prepare young men and ladies to enter college in *from one to two years time*, instead of spending from three to four years in the highest grade of the Grammar School, and the three classes of the High School.

We have the most efficient Professors to be found on this Coast, all being masters of the particular branches they are called upon to teach.

For catalogue of information,

Address

R. SUMPTER ANDERSON,

Room 5,

Odd Fellows' Hall,

SAN FRANCISCO.

Anderson's Normal Class

WAS established in 1873 by Jas. W. Anderson, present State Superintendent of Public Instruction. In 1884 the work was turned over to his son, R. S. Anderson.

The principal aim of this class is to prepare persons to pass the examinations for Teachers' Certificates.

Our business has grown to such an extent during the last six years that we have just purchased a large piece of property for school purposes, situated in the most desirable portion of the city, on California street, between Jones and Leavenworth. We take possession on June 1, 1892, until which time our office will be

~~~~~

THE ENQUIRER has a building of its own, with abundance of room arranged for the convenience of the business, the management having from time to time added several thousand dollars worth of new machinery to make the **ENQUIRER PUBLISHING HOUSE** a complete establishment in all branches of the trade. Besides the

Book and Job Printing Office

THE ENQUIRER HAS A

BOOK BINDERY

complete in all its details, for binding Books, Pamphlets, etc., the manufacture of all manner of Blank Books, Ruling Blanks, Mounting of Maps, etc.

Electrotyping Department

Connected with the establishment is a complete Electrotyping and Stereotyping outfit, conducted by one of the most expert Electrotypers on the Pacific Coast. This branch of the business is also equipped with all the modern appliances for turning out first class work on the shortest notice.

TO MY FRIENDS AND CUSTOMERS AND THE PUBLIC:

I respectfully beg leave to announce that I am now prepared to make Suits, etc., to order, from the very Finest Quality and Latest Styles of FRENCH, ENGLISH and GERMAN WOOLENS, at prices FORTY PER CENT LOWER than any other house on the Pacific Coast.

The reasons why I can afford to sell so much cheaper than other houses are:

FIRST. Because by buying my Goods only for CASH I obtain a discount which at once insures me a profit before any expense for manufacturing is incurred.

SECOND. My business in San Francisco and throughout the Coast being so well established and so extensive, I make twenty times as many suits in a month as any other house, and the expense of course not being so great in proportion, I am enabled to accept less profit and accordingly to sell cheaper.

My business has become so extensive, because my business transactions from the first have always been conducted in accordance with true business principles, honesty and fair dealing having never been disregarded. My motto being to please my customers regardless of cost, I seldom lose one. ALL who have once dealt with me come back again.

My rules are to insure a perfect fit, and full satisfaction on all orders, and this I always GUARANTEE, whether the order is given in person at the House or sent from a distance. Money is always returned to parties who may be dissatisfied, and do not desire alterations made free of expense, or new garments cut and made up for them.

Only the very FINEST LININGS AND TRIMMINGS and the best of workmanship used in all cases.

LIST OF PRICES AS FOLLOWS:

Fine Dress Cassimere Pants, to order, from	\$ 7 00
Elegant Business Suits	25 00
Fine French Beaver Suits	40 00
Fine Diagonal Suits	30 00
Suits from the Finest Goods in the Market, to order from	\$40 to 60 00
Fine Overcoats, to order, from	25 to 35 00
All are cordially invited to examine my Stock of Goods, and would do well to do so before purchasing elsewhere, for I am always willing to show my Goods, whether you buy or not.	

You will always be sure to find the Finest Assortment of Woollens at

JOE POHEIM'S,

724 Market St. 203 Montgomery St. 1110-1112 Market St.

PACIFIC

BUSINESS COLLEGE

320 POST STREET,
Red Men's Building, Opp. Union Square,
SAN FRANCISCO, CAL.

THE design of this School is to prepare its students for the practical duties of life. Since its organization in 1863, it has qualified a very large number of persons for a prosperous career in business pursuits. Its successful work may well entitle it to be ranked as

THE MODEL COMMERCIAL SCHOOL.

The PACIFIC BUSINESS COLLEGE has its graduates employed in the leading business houses of the entire Coast. The Institution supplies Mercantile Houses, Insurance Agencies, Banks, Railroad and Telegraph Offices, etc., with Book-keepers, Stenographers, Cashiers, Bank Tellers, Telegraph Operators, Clerks, Agents, etc., who invariably prove themselves to be fully qualified for the responsible positions which they occupy.

BRANCHES TAUGHT.

Single and Double Entry Book-keeping, as applied to all classes of business; Shorthand, Type-writing, Telegraphy, Business Penmanship, Commercial Arithmetic, Business Correspondence, Mercantile Law, Business Ethics, Science of Accounts, Actual Business Practice in all styles of Keeping Accounts, including Banking; English and Mathematical Branches, including Spelling, Reading, Penmanship, Grammar, Letter-writing, Word Analysis, Rhetoric, History, Philosophy, Arithmetic, Algebra, Geometry, Trigonometry, Surveying, Navigation, etc., and the Modern Languages.

ACTUAL BUSINESS TRAINING.

Our system of Actual Business Training, combining Theory and Practice, is at once so simple and natural that it needs only an examination of its merits to convince the most skeptical of its superiority over all other systems. No person of ordinary intelligence and application can go through such a course of training without becoming a thorough and practical accountant. Many of the most successful and influential business and professional men of the City and Coast may be numbered among our graduates.

LIFE SCHOLARSHIP, \$75.

This is the only Business College in the State that issues Life Scholarships. As carried out at this Institution, they offer many advantages. A Life Scholarship entitles the holder to instruction in all the branches of the Full Business Course, as given in the "COLLEGE REVIEW," until he graduates, with the privilege of review whenever it may suit his convenience. We also issue Six Months' Scholarships for any or all the studies of the College at very reasonable rates. Students may pay by the month if they so desire.

INDIVIDUAL INSTRUCTION.

Individual instruction is given in all departments of the College. In the Business Course the class system is entirely discarded, except for lectures, general reviews, and practical exercises on the black-board. Thus each student receives all the advantages of private instruction, and is enabled to advance as rapidly as his ability and application will permit.

THE COLLEGE HALLS.

In all respects we have the finest school-rooms on this Coast. They are large, well ventilated, elegantly furnished, and command a splendid view of the City and its environs. Every apartment has a sunny exposure, and is flooded with light and with fresh, pure air. The ceilings are sixteen and a half feet in height; and the several rooms have thirty large windows, furnished with inside blinds.

NO VACATIONS.

We have no vacations and no term divisions. Day and Evening Sessions are held during the entire year. Day Sessions from 9 A. M. to 12 M., and from 1:30 to 4 P. M.; Evening Sessions from 7 to 9 P. M. Students may commence at any time and pursue their studies without interruption.

For further information call at the College Office, 320 Post Street, or send for "THE PACIFIC BUSINESS COLLEGE REVIEW," containing full particulars in regard to College Departments, Courses of Study, Methods of Instruction, Rates of Tuition, etc. Visitors always welcome.

Names belonging in Fruitvale, Golden Gate, Temescal and Emeryville will be found in the Oakland portion of the work, as it is found more satisfactory to have them arranged in this manner, owing to the boundaries being so indefinite and it will lessen the trouble of searching for names.

Names belonging in Fruitvale, Golden Gate, Temescal,
and Emeryville will be found in the Oakland portion of
the work, as it is found more satisfactory to have them
arranged in this manner, owing to the boundaries being
so indefinite, and it will lessen the trouble of searching
for names.

Mutual Benefit Life

INSURANCE CO. of New Jersey.

ASSETS, Jan. 1, 1892, \$48,924,828.70

Annual Distribution of Surplus.

ALL POLICIES NON-FORFEITABLE

AFTER SECOND YEAR.

A Dollar's Worth of Insurance for Every Dollar.

Members unable to continue Payments do not forfeit their policies,—*Insurance Continued for FULL AMOUNT until FULL VALUE of Policy is Exhausted.*

Example of Lapsed Policies Paid in Full Under the Mutual Benefits Peculiarly Attractive Non-forfeiture System.

Policy No. 74,911, on the life of **Dr. Andrew J. Cory, of San Jose, Cal.**, was issued in 1873, at age 41, for \$1,000, with an annual premium of \$33.28. He paid 10 premiums, amounting to \$332.80, which, less dividends, \$72.49, made a net payment or cost of \$260.31, exclusive of interest. He did not pay the premium due in September, 1883; but instead of taking a paid-up policy for \$304, as he could have done, he allowed his insurance to be **extended for 9 years** and 173 days, making in all 19 years and 173 days' insurance, at an average yearly cost of \$13.37 per thousand.

Mr. Cory died in March, 1892, more than 8 years after the lapse of the policy, which, however, was promptly paid in full by the Company. The above rule applies to all policies.

Giving at age 35, on the Annual Life Plan.

Over 4 Years' Insurance for 2 Years' Premiums;
Over 10 Years' Insurance for 5 Years' Premiums;
Over 20 Years' Insurance for 10 Years' Premiums;
Or paid-up policy issued if preferred.

Premiums payable annually, semiannually or quarterly, in cash, or 30 per cent. by a premium loan. Send for specimen policy.

The Best Contract Ever Offered.

—THE—
Mutual Life
Insurance Co.
OF NEW YORK.

RICHARD A. McCURDY, - President.

Assets Over \$160,000,000

Holds the foremost place among Life Insurance Companies of the world, and offers superior advantages in all its forms of Insurance, together with unequaled security.

Of the many forms of contracts issued by this Company, the **SPECIAL INCOME Policy** (issued only by the Mutual Life) has met with general approval, which is not alone due to the financial advantages accruing to those insured under its provisions, but to the liberality of the contracts and the absolute security offered.

Illustration furnished on application.

OAKLAND SEMINARY

For Young Ladies.

MRS. M. K. BLAKE, PRINCIPAL.

528 Eleventh St.,

Corner of Clay,

OAKLAND, CALIFORNIA.

OAKLAND Seminary was organized by the present Principal, Mrs. M. K. Blake, November, 1858, and was re-opened January 6, 1890.

Its departments are Kindergarten, Primary, Intermediate, College Preparatory and Graduate.

Ancient and Modern Languages, Drawing and Painting, Vocal and Instrumental Music are taught by experienced and thorough teachers of the first order.

Special course of study can be pursued. Individual attention will be given to pupils when necessary for their advancement.

This institution prepares scholars for the University and Eastern Colleges.

Particular attention is devoted to manners and to the formation of correct habits of thought and action.

Wednesday is the Reception Day, but visitors will be received in the school on any school day and at any hour for the purpose of inspecting the school.

Superior advantages in Vocal and Instrumental Music and in Drawing and Painting.

Musical and literary entertainments, for which a grand piano is provided, will be frequently given to afford opportunity to judge of progress in study and allow students the advantage of social intercourse in cultivated society.

The location is central, near churches and the principal assembly and lecture rooms of the city.

The schoolrooms are sunny and delightful, and the grounds have large inclosure for out-of-door recreation, containing croquet grounds and tennis court.

To each boarding pupil a home is promised with special care of health and happiness.

Students have their own pleasant parlor and can choose single or double sleeping rooms.

After one hour study each evening the time is passed in reading aloud and sewing or embroidery, except Friday evening which is set apart for entertainment and amusement.

Pupils are required to repair their clothes each week, under the supervision of a competent person appointed for the purpose.

A class in plain sewing or embroidery will be formed for those who desire it.

No pupil will be retained who is found to have a bad influence in the school.

Heald's Business College

ACTUAL BUSINESS DEPARTMENT

24 Post St., San Francisco, Cal.

The Great Business Training School of Pacific Coast

For full Information see next Page.

E. P. HEALD, Pres.

G. S. HALEY, Sec.

HEALD'S BUSINESS COLLEGE

24 Post Street,

Opposite Mechanics' Institute.

SAN FRANCISCO.

The Most Popular School on the Pacific Coast.

THE design of this institution is to impart to persons of both sexes a practical and useful Business Education. Young men are thoroughly fitted for Bankers, Merchants, Bookkeepers, Cashiers, Shorthand Writers, Typewriters, Clerks, and Salesmen by our great system of **Actual Business Training**. By this system the pupil receives while in school the same practice in conducting business affairs that he would in a *bona fide* Bank, Office, or Counting House.

BRANCHES TAUGHT.

Single and Double Entry Bookkeeping, Shorthand,	Modern Languages,	Custom House Business,
Plain and Ornamental Penmanship,	Typewriting,	Real Estate,
Commercial Arithmetic,	Railroading,	Telegraphy,
Business Correspondence,	Stenography,	Commission,
Mercantile Law,	Brokerage,	Importing,
Actual Business,	Exchange,	Forwarding,
Merchandising,	Jobbing,	Grammar,
Insurance,	Mining,	Reading,
Banking,		Spelling.

THE SCHOOLROOM AND COUNTINGROOM

Are united upon a plan that secures to the student all the practical advantages of each. There is in operation a Banking House, with Checks, Drafts, Notes, Bills of Exchange, Certificates of Deposit, etc., fully illustrating the Banking Business.

INSTRUCTION FOR LADIES.

Ladies are admitted into all the departments of the College on the same terms and conditions as young men. Their progress in all branches thus far has been most flattering.

GENERAL INFORMATION.

Pupils can enter the college at any time and pursue their studies to graduation, without interruption, if they see fit to do so. Pupils not sufficiently advanced for the Business Course can enter for instruction in the English Department.

Modern Languages, Shorthand, Typewriting, and Telegraphy are optional studies, and may be taken or not, as the student may see fit, but no extra charge will be made for them when pursued.

The discipline of the school is very careful, in order to impart such habits as shall conduce to the future success of graduates.

Visitors will be always welcome at the College, as we are pleased to have the public inform itself of the merits of our school.

There is no extra charge for any study taught in the college; everything is included under one tuition fee of \$75.00 for the six months' course.

Further Information.—Full particulars regarding the school and its workings may be had at the office of the College, 24 Post Street, or by addressing

UNSURPASSED

—FOR—

BRILLIANCY AND FINISH.

OW ARE YOUR TEETH?

WITHIN the past few years marvelous strides have been made in the art of dentistry. Old methods have given way to the discoveries that are ever being made in the march of civilization, and the methods of fifty years ago have practically become obsolete.

Probably the greatest achievement of all in the treatment of the teeth has been the discovery of

BRIDGE WORK.

By this process a complete revolution has taken place. Once upon a time teeth were carved from ivory in one solid piece, and then stuck in the mouth in a clumsy, ungainly, and uncomfortable manner. This gave way to the vulcanized rubber system, which is still used by those dentists who have not kept abreast of the great advance that has been made during the past few years. By the rubber method a plate is moulded and inserted in the mouth completely covering the palate, and in consequence producing an unnatural and unpleasant feeling.

Bridge work, however, sweeps into the past all the old-fangled notions and practices of a school which will now fall into desuetude. By it the mouth is left in a perfectly natural condition. Teeth are replaced as truly and as faithfully as if nature herself had done the work. No plates fill the mouth; no longer will the patron of dentistry have to undergo the disagreeable feelings resultant from the suction of the rubber plate; no longer will the organ of taste be destroyed by divesting the powers of the palate, for bridge work entails none of these experiences, and, in fact, when the teeth are handled by this process the mouth is left in as pure and as perfect condition as if the original growth of nature had never been tampered with.

Unfortunately there are very few dentists who are able to do bridge work. It requires a great deal of mechanical ability as well as special training, and in consequence those who have been addicted for years to the old methods find the task of reform impossible. In point of fact it is a specialty.

Thoroughly trained in every line and branch of the new method, and with an establishment equipped for handling it in every detail, I am prepared to treat all cases. I have made a specialty of bridge work for the past five years, and am a graduate of the Philadelphia College. I guarantee first-class work at reasonable prices, and would add that this process is as painless as it is satisfactory in result.

ALAMEDA.

THE **CHRONICLE** HAS THE **Largest Circulation.**

THE CITY OF ALAMEDA (pronounced *ah-la-may-dah*) is about seven miles from San Francisco, and communicates therewith by two lines of railway, with their connecting ferries. The city occupies a peninsula four miles long by about a mile in width, formerly called the "Encinal de San Antonio," from the grove of live oaks by which it was covered. Enough of the oaks still remain to give a charming rural aspect to the city, though beneath their grateful shade stretch miles upon miles of macadamized streets and artificial stone sidewalks, and above their highest boughs hang myriad electric sparks that light the Alamedan to thousands of beautiful homes surrounded by verdant lawns and beds of flowers.

Alameda has about 12,500 inhabitants. In 1880 the population was 5,708, and in 1870, 1,557. In 1870 the number of schoolchildren was 159; in 1880, 1,525, and in 1890, 2,505. The expenditures for school purposes during the same years were respectively \$1,440, \$27,720, and \$43,705, and for this year \$77,381. Valuation of school property, \$3,190, \$60,600, \$101,000 and for 1892, \$125,000.

Public improvements of all kinds are being pushed with spirit and judgment. During the past two years about forty-three miles of streets have been macadamized, at an expense of \$267,501. About thirty-five miles of artificial stone sidewalk have also been laid during the same period, and forty-five miles of sewers to date.

The public schools are excellent and well supported.

Recently extensive additions and improvements have been made to the school property. A lot 150x240 at the corner of Everett street and Eagle avenue was purchased for \$7,200. A handsome eight-room schoolhouse, furnished with all the modern apparatus and appliances, has been erected at the corner of Santa Clara avenue and Bay street, at a cost of \$23,770. Also, a new school has been erected on Van Buren, between Court and Mound, at about the same cost.

BERKELEY.

Berkeley lies on the eastern shore of San Francisco Bay, about five miles north of Oakland, and facing the Golden Gate. It has about two miles of water front upon the bay, and extends eastward and inland about three and one-half miles, to the tops of the first range of mountains. It was organized under a special town charter in 1878. East Berkeley, comprising the east two-thirds of the town, is the seat of the State University, and contains numerous private schools, besides one of the best public schools in the State, from which students enter the University without further examination. The town is lighted by electricity; has a complete sewer system; the streets are being macadamized, and it is a thriving and growing town. The present population is about 6,000.
